

JUMPER CORD (40/20A)				
Product	Amperage	Voltage	Length	Catalog Number
JUMPER	40/20	UNIVERSAL 120/277	12"	MD4020-UNIV-JC-(F)-00-12-X

Finish (F): G=Grey B=Black W=White

Jumper Cords are for use with all types of lengths. The Jumper connects power to intersecting lengths. Jumpers are fused on both leads. As a result, can connect 40A lengths to 20A lengths.

Jumpers provide a three pole electrical connection for building X,T, L configurations. One Jumper powers intersecting lengths.
